

Learn About Wireless Radiation

- 📶 All mobile and Wi-Fi devices operate through two-way microwave radiation, but have never been safety tested.
- 📶 A growing body of scientific evidence indicates Wi-Fi and cellular radiation causes extensive biological harm.
- 📶 Out-dated government guidelines do not reflect current science, so manufacturers are still allowed to sell products that emit toxic levels of microwave radiation.
- 📶 Adults and children alike are beginning to feel unwell around mobile and portable DECT phones, Wi-Fi routers, tablets, wearables, smart utility meters, and other wireless devices.
- 📶 Longer-term concerns include DNA damage, cancers, infertility, Alzheimer's, autism, chronic fatigue, learning disabilities, behavioral issues and more.
- 📶 We believe a little education will go a long way to protecting yourself and your loved ones.

Protect Yourself and Those You Love

WirelessEducation.org has created low-cost, scientifically credible courses to help you learn safe technology practices:

-  The Introductory "course" is actually a 10-minute Free Quiz that will teach you the basics of wireless radiation and general safety tips.
-  The Schools and Families Course is a terrific primer for parents, teachers, older students and well, everybody else to really understand the issue. It distills thousands of scientific studies and medical advisories into easy-to-learn concepts. For about the cost of a movie ticket, in 40 minutes you will be able to assess your technology use and learn options to greatly reduce your microwave radiation exposure. You will also receive a tip sheet at the end with handy reminders!
-  The Corporate Induction Safety Awareness Course discusses microwave radiation exposure in the business environment and how to set up safer work protocols. It also reviews legal liability and precedents set for workers compensation cases around the world. This low-cost course can be done in just 40 minutes, and each employee will receive a Certificate of Completion plus a sheet of office safety precautions at the end.
